## Lies Inside

### chorus:

Your love makes me feel alone  
Realizing your awe has gone  
Our binding ring...  
Slaves my freedom

Hate yourself, don't care  
About me or someone else

The punch of your fist makes me to close my eyes  
It makes me believe my inside is cold as ice  
A spiked wire turned around my throat  
Reflecting the blazing symbol of my oath  
Wrenching tears flown down into my shaking palms  
By smelling your breath (your breath) by my side

### bridge:

Your tender caress on my scarry neck  
Dropped by frantic punch convinces me you're back

### chorus

Hate yourself, don't care  
About me or someone else

Someone else!!!!!!!!!!!!!!

Isolation, low self-esteem, suffering and fucking more  
You will never(you will never)understand it unless you've been through before

**bridge:**

You're a tidal wave pulling me further in  
I don't feel upto facing anyone or anything

The place inside my mind, a place I like to hide  
Another kind of freedom to escape the pain inside  
Your secret lies that you hide(I don't want to find)  
The place of screaming silence, the sound of shouting violence!!!

**We Are**

Alright!!  
We are like black and white,  
Something sad but it makes you laugh  
We are that abstract peal  
Like a threat that is fucking real!!!

Like a strain, we can induce  
We're the vice you can't traduce  
Something that brings up the pulse  
The impulse you can't repulse

WeARE, WeARE, WeARE, WeARE!!!!

**chorus:**

We are something that will not conform  
Something that you can't control  
And we don't care  
Whether we're for you indole

More, more just don't stop and pull the plug  
Just go, just show, just prove us you're motherfucking thug  
We are the noise pulling the calm out your head  
Unlock your mind and let fly your mental torment

Destroy and go, just break the limits  
Push away people, thay are so wicked  
Ready? Come on! Don't wait, wrest it!

Show you're thug  
Just don't stop and pull that motherfucking plug

chorus

WeARE, WeARE, WeARE, WeARE!!!!

## **Absorbed to Core**

### **chorus:**

Absorbed to core and lost in thought  
Laying on the floor, waiting to rot  
Sought for help but nobody cares  
Cold and scared, followed by disgusted  
Stares!!!!

You're beginning to look like the beggining of the end  
Frantically searching for your „friend“  
Under the couch or table  
Another taste, another label  
Never enough, you need much more  
Shut and lock the door...

More...  
The sweet taste you'll always crave

It owns you and will devour you whole  
Pathetic, you have sold your soul  
You can't get out, you can't escape  
Just one more I want to taste  
Ugly, sick and head full of shit  
Please give me more, just one more hit!!!

### **chorus**

### **chorus**

Save me...Save me...Save me....

## **Burn My Soul**

When I'm looking at your sky  
Watching all those silent clouds  
Void fills the flowing mind  
As if it was borrowed from the night

Borrowed from the night

I'm standing in here all alone  
To see the lying truth  
With hopeless rain that burns me (burns me) whole  
And sight that thrusts me through

chorus:

Burn my visions  
Burn my eyes  
Burn my soul and burn me whole  
Growing fire, dancing in the well of sorrow  
The day will die  
New dawn will never rise for my sky!!!!

Now the sky is crying fading stars  
Flames light those silent nights  
Ashes to ashes and dust to dust  
I wish I'd never seen this sight

Flames in my soul I bore  
Long after it burns no more  
Listen! For the void profound  
Is overflowing with the sound  
of the weeping sky...

chorus

## **Two Of Me**

All begins at the head of the river  
Origin of futile defect  
Genesis, virtuous weakness  
Drowning you in the crowd of your enemies!!  
You wanted in  
Now your're here  
Chased by fear (chased by faceless fear)  
That flows within you  
chorus:

Flow!!!

The infection of the human race

Far away, so far away

Eyes of your broken innocence

Blood!!!

So wild, so cold and sly

Infected river, contaminated blood

Please don't do it , don't cry

You'll run dry...

You wanted in, now you're here

Driven by hate, consumed by fear

Emotional response to the threat an danger

Change your fear, show your useless

Anger!!!!

I scare myself I just can't let it flow

Don't know the reason!!!

I scare myself!!!

You fuck off now!!!

Endless confusion

Two of me

Forgotten being of disharmony!!!!

There's no hope left for me

It's over now!!!

chorus

## **Be It My Will**

Your face such a mirror that reveals me what I hate  
(why) Did I think I could find myself in fighting against fate  
I felt flesh of wrath, crawling memories everywhere  
dead pan body, freezing heart  
burning tears tearing my soul apart!!!

Be it my will!!

Nothing will, nothing'll save me before the eyes of death  
There's a storm, dreadful rain  
Beads of fear fall deep inside my head  
No more strain, never again  
My soul is rambling and spreading hate

Be it my will!!

**bridge:**

Freezing water, forrest stream  
Carries all my sins away  
Painful present of agony  
Make my past and future gray  
Make my past and future (future) gray

**chorus:**

Coldness felt in blind  
Cast up gone out my eyes  
Unleashed struggle with my mind  
Nothing can force me to lose  
My fucking warheart!!!

**chorus**

**bridge**

## **Within Me**

Beast lurks within me  
I can hear It's calling  
Beast lurks within me  
The last drop is falling  
Now!!!

Tell me what is this  
I cannot fight it anymore  
So say what is this  
Out of this world raging

Beast lurks within me  
I can hear it's calling  
Beast lurks within me  
The power overcoming  
Me!!!!

**chorus:**

I wasn't able to stop  
To think about the bunch of consequences  
In vain I'm searching for cause  
Can't forgive myself  
Why!!!

Kick in the head, punch in the face  
Swallow pain and disgrace  
Get out from here, this is my place

Suffering, halucination, mind full of determination

Grapped a rock, throw it at him  
Out of my place, my skin  
Terror, wrath inflicted on him  
It's a complete devastation, hell is my own destination

### **chorus**

Dirt on my hands, what have I done  
Fear, dispair which I feel

Piercing through my flesh like razor sharp knife  
My own conscious is killing me!!

I have hurt the ones I loved, the ones I hated  
Deep wound I have in my soul,  
I'm the one who made it.

I'm the one who made it!!!  
Tell me why!!!

## **The Worlds Collide**

Bloody lights in endless night  
Abolished by day  
Emptyness and nothingness  
I've got to run away (run away)

Followed tears and sorrow  
I've seen worlds decay  
Let it leave and be no more  
Forever you will stay

Wake Up!  
Free YOur Mind  
Of the World Ruled By Death And Cruelty

Wake Up!  
Dont Be Afraid  
Your Visions Are Far From Reality

Empty room with the silent throne of ice  
Dying once again  
I can see her standing there  
We all fall to remain (there's life to drain)

Crawling sounds of crying (CRYING!!!)

Quietly flows the time  
Sudden voice of soul long dead  
FROM NOW ON YOU'LL BE MINE!!!!

Wake Up!  
Free Your Mind  
Of the World Ruled By Death and Fools

Give Up!  
Oh, Be Afraid  
The Visions You See Are True

Drowning in Pain you'll stay here  
Forever and ever and ever  
You'll be alone

SEE IT! HEAR IT! FEEL IT!  
CRY!  
Listen to despair of those who were embraced

FIGHT IT! BEAT IT! LOSE IT! DIE!  
Why (are) you still ALIVE?!  
Cry out! Fear the neverending agony!

**chorus:**

The air is cold and her face is pale  
I just cannot believe  
That there's nothing left to do but  
Accept this fate unreal

Someone just has to go  
Oh, the sacrifice  
But I will never be the one

Will I win or...You will FAIL!!!

The air is cold and her face is pale  
I just cannot believe (BELIEVE!)  
That there's nothing left to do but  
Accept this fate unreal (FATE UNREAL!)

Someone just has to go  
Oh, the sacrifice (YOU'LL GO!)  
But I will never be the one (JUST DIE!)

Will I win or will I fail  
I have never been that sure  
That tonight i'll be free again...once again...

Yet all was in vain...
